CAREER OBJECTIVE

Ambitious Computer Science student with a strong foundation in software engineering, full-stack development, and digital transformation. Demonstrated ability to design and deliver end-to-end technical solutions, managing the full development lifecycle from concept and system architecture to implementation and structured handover to stakeholders. Skilled in leveraging modern technologies and AI-driven systems to solve complex, real-world problems and create scalable digital solutions. Seeking a challenging opportunity to contribute to high-impact projects while continuously advancing my technical and professional expertise.

EDUCATION

Bachelor of Computer Science

Expected Graduation: June 2026

Department of Computer Science and Artificial Intelligence
Umm Al-Qura University

PROJECTS

Kafaa – Smart Career Development Platform

July 2025

Developed an AI-powered platform to analyze resumes and identify skill gaps. Integrated a recommendation system to suggest targeted courses based on market requirements and visualized career paths to enhance user employability.

Laboratory Management System

February 2025

Designed and developed a system to manage university laboratories, including resources, equipment, and scheduling, enhancing organization and learning efficiency. Built using JavaFX.

SKILLS

Technical Skills

- Programming Languages: Java, Python, PHP
- Frameworks: Laravel, JavaFX
- Web Development: HTML, CSS, JavaScript
- Backend Development: RESTful APIs, Database Integration
- Databases: MySQL
- Software Development: Object-Oriented Programming (OOP), System Design
- AI & Machine Learning: Machine Learning, AI-based Systems
- Tools & Technologies: Git, GitHub, Visual Studio Code, NetBeans
- UI/UX Design: Figma
- Operating Systems: Linux, Windows
- Productivity Tools: Microsoft Office (Word, Excel, PowerPoint)

Soft Skills

- Problem Solving and Analytical Thinking

- Effective Communication
- Teamwork and Collaboration
- Time Management and Prioritization
- Adaptability and Flexibility
- Attention to Detail
- Self-Learning and Continuous Improvement
- Ability to Explain Technical Concepts to Non-Technical Stakeholders
- Working with Non-Technical Clients and Stakeholders

EXPERIENCE

Co-op Trainee – Ministry of Hajj and Umrah

570 Hours

Worked within the Technology and Digital Transformation Department to support the modernization of technical services. Contributed to optimizing digital workflows, enhancing system efficiency, and supporting the Ministry's initiatives in digital transformation to improve the experience for staff and stakeholders.

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** – Google (via Coursera)
- **Project Management Track** (21 Hours) – Doroob Platform (PMP Framework)
- **Future Skills Track** (14 Hours) – Doroob Platform (Design Thinking & Emotional Intelligence)
- **Introduction to AI Certificate** – Coursera
- **Mobile & Web Development Courses** – Udemy
